EDUCATION

B.Tech. – Artificial Intelligence and Machine Learning | First Class | Institute of Aeronautical Engineering (IARE), Hyderabad | **2024**
Diploma – Computer Science Engineering | First Class | Jyothismathi Institute of Technology & Science, Karimnagar | **2020**

CORE COMPETENCIES

- SAP S/4HANA Technical Consulting
- SAP ABAP & ABAP Cloud Development
- RAP Business Object Development
- CDS View & Code Pushdown
- Fiori Elements & SAPUI5 Development
- SAP BTP Extension Development
- Custom Code Migration & Remediation
- SAP Integration & Interface Development
- RICEFW Development
- SAP Performance Optimization
- SAP Application Support & Troubleshooting
- SAP Data Migration
- SAP Workflow & Business Rules
- Agile/Scrum Delivery

TECHNICAL SKILLS

- SAP Development: ABAP, OO ABAP, ABAP on HANA, Modern ABAP Syntax, Open SQL, RICEFW
- S/4HANA Development: CDS Views, Associations, Annotations, Managed RAP, OData V2/V4, SAP Gateway, SEGW
- Interfaces & Integration: BAPI, RFC, IDoc/ALE, SAP AIF, REST, SOAP, JSON, XML, SAP Integration Suite/CPI Monitoring
- Enhancements & Forms: BADI, User Exits, Customer Exits, Enhancement Framework, Implicit and Explicit Enhancements, Adobe Forms, Smart Forms
- Reporting & User Interface: Classical ALV, OO ALV, SAP Fiori, Fiori Elements, SAPUI5 Application Support, OData Binding
- Performance, Quality & Support: ST05, SAT, ATC, SCI, ABAP Debugger, ST22, Developer Unit Testing, Test Evidence, Production Support
- Functional Exposure & Delivery: SAP SD, SAP MM, Technical Specifications, SIT/UAT Support, Transport Management, Agile/Scrum

SAP Technical Consultant | SAP ABAP+FIORI Developer

JOB OBJECTIVE

To contribute SAP S/4HANA transformation through **ABAP Cloud, RAP, CDS, Fiori, and BTP Extension** expertise, combining clean-core development with performance-focused and integration-driven solutions.

PROFILE SUMMARY

- **SAP Technical Consultant** with nearly **3 years of experience** delivering S/4HANA development, custom-code remediation, application support, integrations, and clean-core aligned solutions across greenfield and brownfield environments.
- At **Verity & Proinkfluence IT Solutions**, developing RAP Business Objects, CDS-based solutions, Fiori applications, Cloud Integration iFlows, and BTP side-by-side extensions for a discrete manufacturing S/4HANA implementation.
- Delivered approximately **130 development and remediation objects** across S/4HANA projects, including **65 custom-object remediations, 25 RICEFW objects, 7 RAP Business Objects, and 4 Fiori Elements applications.**
- **Combined S/4HANA Transformation and Clean-Core Development** expertise across ABAP Cloud Remediation, Code Pushdown, RAP, CDS, Fiori, BTP Extensions, SAP Integration Suite, and Performance Optimization.
- **Translated SQL and runtime findings into measurable performance gains**, while coordinating Development, Migration, Integration, and L3 Support activities within Agile/Scrum teams.

WORK EXPERIENCE

Verity & Proinkfluence IT Solutions Pvt. Ltd.	Hyderabad, India
---	------------------

Jun'25-Present | SAP Technical Consultant

- Developing 7 RAP Business Objects with OData V4 service bindings for sales-order and purchase-requisition scenarios, incorporating draft handling, determinations, and validations.
- Optimizing a pricing-simulation report through CDS-based aggregation and SQL Monitor findings, reducing execution time from approximately 9 minutes to under 2 minutes.
- Remediating 25 custom objects for ABAP Cloud compliance by replacing direct table access and deprecated function modules with released CDS views and APIs.
- Delivering 4 Fiori Elements applications using CDS annotations and metadata extensions, replacing legacy SAP GUI transactions for approximately 250 plant users.
- Building 5 SAP Cloud Integration iFlows connecting S/4HANA with CRM and 3PL platforms, supporting approximately 15K monthly messages with AIF-based monitoring.
- Contributing 2 CAP Node.js services to a BTP-based supplier portal using HANA Cloud, XSUAA, and Destination-based backend connectivity.
- Evaluating SAP BTP Document Information Extraction for invoice-header capture through a 150-invoice proof of concept, achieving approximately 80% field accuracy.

Jan'24-May'25 | Associate SAP ABAP Consultant

- Remediated 65 custom objects identified through the Custom Code Migration application during an ECC 6.0-to-S/4HANA brownfield conversion.
- Converted 12 legacy reports to CDS-based ALV with Integrated Data Access, reducing the slowest execution from approximately 3 minutes to 1 minute.
- Developed 25 RICEFW objects across 7 interfaces, 6 enhancements, 7 reports, and 5 Adobe/Smart Forms over four sprints.
- Migrated approximately 300K customer, vendor, and material records through SAP Migration Cockpit and prepared reconciliation reports for functional validation.
- Created 3 SAPUI5 freestyle applications and 2 adaptation projects with OData V2 CRUD operations and role-based Launchpad catalogs for shop-floor users.
- Reduced the IDoc failure backlog from approximately 900 to under 150 within six weeks through AIF reprocessing and technical analysis.
- Resolved 200+ P1/P2 production tickets, using ST22, ST05, and SM21 analysis to support SLA-based application resolution.
- Delivered 6 Adobe Forms across 2 countries for an EU localization rollout with BRF+ output management.
